

Infinity Support Services was established in 2011, and is a program management and technical support consulting company. We provide acquisition and procurement, engineering, product support and sustainment, as well as financial management, IT systems and networking, and operational logistics. Infinity is a Small Disadvantaged Business (SDB) and has been a designated Small Business Administration (SBA) Certified 8(a) Program Participant since July 2012. We have established ourselves as a highly-valued partner, having secured multiple large business contracts supporting Department of Defense (DoD) service programs. Our goal is to empower our customers to successfully complete their mission on a daily basis.

Our Experience

Marine Corps Systems Command, Program Manager, Medium and Heavy Tactical Vehicles (PM MHTV)

- Engineering Support
- Configuration Management
- Integration Support
- Systems Engineering Support
- Safety and Survivability Support
- Energy Efficiency Initiatives
- Engineering Change Proposal (ECP) Development
- MHTV Vehicle Sustainment
- Vehicle Modification Support
- Technical Manual Writing and Illustrating
- Validation and Verification (Val/Ver)

Marine Corps Program Executive Office/Land Systems (PEO/LS), Seat Survivability Upgrade

- Limited Technical Inspection (LTI)
- Findings Documentation Development
- In-Process Reviews (IPRs)
- Indentured Bill of Material (IBOM) Review
- Quality Testing and Control
- Item Unique Identification (IUID) Updating

Program Manager, Advanced Amphibious Assault (AAA)

- Technical White Papers Development
- System Evaluation Plan (SEP) and Test Evaluation Master Plan (TEMP) Development
- Engineering Requirements Specifications
- Engineering Inputs Coordination
- Vendor Technical Data Review
- Engineering Studies
- Market Research and Maintenance Analysis
- Total Life Cycle Support Management
- Total Manpower Requirements Development
- Reliability, Availability, and Maintainability (RAM)
- Configuration Management
- Software Development Processes Evaluation
- Industry Common Drafting Software
- Live Fire Test and Evaluation Support

Infinity Support Services recognizes even the best designs may necessitate modifications to satisfy requirements only evident once a system is fielded. Profound technical knowledge is needed to make critical engineering changes and recommendations. Infinity has the experience to provide the best engineering support for the most important stakeholder; the warfighter.

Infinity has provided the United States Marine Corps with engineering support services on several key systems including the P-19R Aircraft Rescue & Fire (AAFES) vehicle and Mine-Resistant Ambush Protected (MRAP) Cougar variant. Our recommendations and assistance greatly improved the Engineering Change Proposal (ECP) process which resulted in upgrades and modifications that allowed each system to pass testing and become more effective while provided greater safety and efficiency. Engineering support services provided by Infinity have assisted in the fielding and sustainment process while easing the workload of government vehicle support personnel and logisticians.
