

Infinity Support Services was established in 2011, and is a program management and technical support consulting company. We provide acquisition and procurement, engineering, product support and sustainment, as well as financial management, IT systems and networking, and operational logistics. Infinity is a Small Disadvantaged Business (SDB) and has been a designated Small Business Administration (SBA) Certified 8(a) Program Participant since July 2012. We have established ourselves as a highly-valued partner, having secured multiple large business contracts supporting Department of Defense (DoD) service programs. Our goal is to empower our customers to successfully complete their mission on a daily basis.

Infinity Support Services has real-world, tactical expertise in managing and moving the iron mountain required to support today's modern military. Relying upon best practices learned from first-hand support of the United States Marine Corps during war-time Operational Tempo for Operation Iraqi Freedom and Operation Enduring Freedom in Afghanistan, Infinity Support Services has the proficiency to integrate numerous logistical facets into an effective enterprise logistics support program. This includes sustainability, maintainability, and reliability – however, mastering these concepts is only the beginning of world-class logistics support. Maintaining supply chain and meeting the maintenance and survivability needs of each vehicle and weapons platform are critical elements in modern military logistical support.
